

# MySmile<sup>®</sup>

Your all-access pass to  
your dental plan

## What's MySmile?

It's like online banking, but for your dental plan. It gives you easy, secure access to all the information you need to understand your coverage and use your benefits to keep your smile healthy.

As a Delta Dental of Washington member, you can use MySmile to:

**Access your ID card.** Display a digital copy or download and print.

**Get out-of-pocket cost estimates.** Know your costs before you go.

**Find an in-network dentist.** Search for an in-network dentist near you and filter your results by patient endorsements! Only verified patients can give endorsements so you know they're trustworthy.

**Endorse your dentist.** Recognize your favorite dentist and help other members find theirs.

**Review your coverage.** Get a snapshot in your personal dashboard or dive deeper into your covered treatments and services.

**Monitor your benefits usage.** See the activity for all members on your plan, how much of their benefits have been used, and how much they have remaining.

**Connect with us.** Get a quarterly newsletter with tips and tricks for maximizing your coverage and keeping your smile healthy.

We know life gets busy, that's why we created MySmile.

Registration is easy! You don't even need your ID card to get started. Simply use our "Find My ID" lookup tool on the registration form.
